You can help the Richmond region "Get Aware of their Air!" beginning with your company! During the summer months, RideFinders alerts the community of the Department of Environmental Quality's daily air quality forecast. To ensure the health and well-being of everyone, it is vital that commuters share the ride, especially on Code Red days, which are hazardous to your health. Please complete the following form and return it to RideFinders to receive further information on what your company can do to help save time, money, and the air we breathe.
